# Where do we go from here?

- Re-create an effective SLC
- Changes need to be made
  - Structure
  - Meetings
  - Things to think about

### Structure:

- Does the SLC need to be restructured?
- Do we still need a board?
- What is the role of the board members?
- Subcommittees

# Meetings:

- How often should we have meetings?
- Where should the meetings be held?
- Should meetings focus on specific departments?
- What type of training should be included?
- Should meetings have a theme?

## Things to Think About

- What suggestions do you have to ensure a more effective SLC?
- How do we get customers involved?
- Is this something you would like to be involved in? If so how?
